Topics Covered

- ✓ HTML
- ✓ CSS
- ✓ JavaScript
- ✓ Jquery
- ✓ Bootstrap

Text Editor

For developing a web site we need a simple text editor to code and programme. Even basic Notepad can be used. But, for high performance and other features we need specialized code editors.

▶ Microsoft's Visual Studio Code (VS code)

Download Link: <https://code.visualstudio.com/Download>

▶ Sublime Text editor

Download Link: <https://www.sublimetext.com/download>

▶ Atom Editor

Download Link: <https://atom.io/>
